

## Managed Files Transfer (MFT)

# Transfer files with confidence

Modern Managed File Transfer solutions go well beyond legacy FTP or email approaches. They offer enterprise-grade security, automation, visibility, and compliance.

## Why Choose Managed File Transfer?

Unlike fragmented tools, MFT offers a unified solution for sensitive data exchanges with enterprise-grade capabilities.

### End-to-end encryption and authentication

Protect files in motion and at rest with advanced security protocols.

### Automation of workflows

Reduce manual intervention and minimise human error through intelligent automation.

### Detailed audit trails & reporting

Full visibility and accountability with comprehensive logging and reporting.

### Regulatory compliance support

Meet HIPAA, PCI-DSS, GDPR, SOC 2, and other compliance requirements.

### Robust security measures

Policy enforcement, centralised oversight, and threat prevention capabilities.

### High availability & scalability

Cloud-based or hybrid deployments for growth and resilience.

## Our MFT Service Highlights

Our comprehensive MFT solution delivers security, compliance, and operational excellence for your organisation.

-  Secure encryption & authentication
-  Regulation-ready compliance
-  Automated workflows & real-time tracking
-  High-availability infrastructure
-  Customisable integration
-  Scalable & flexible architecture

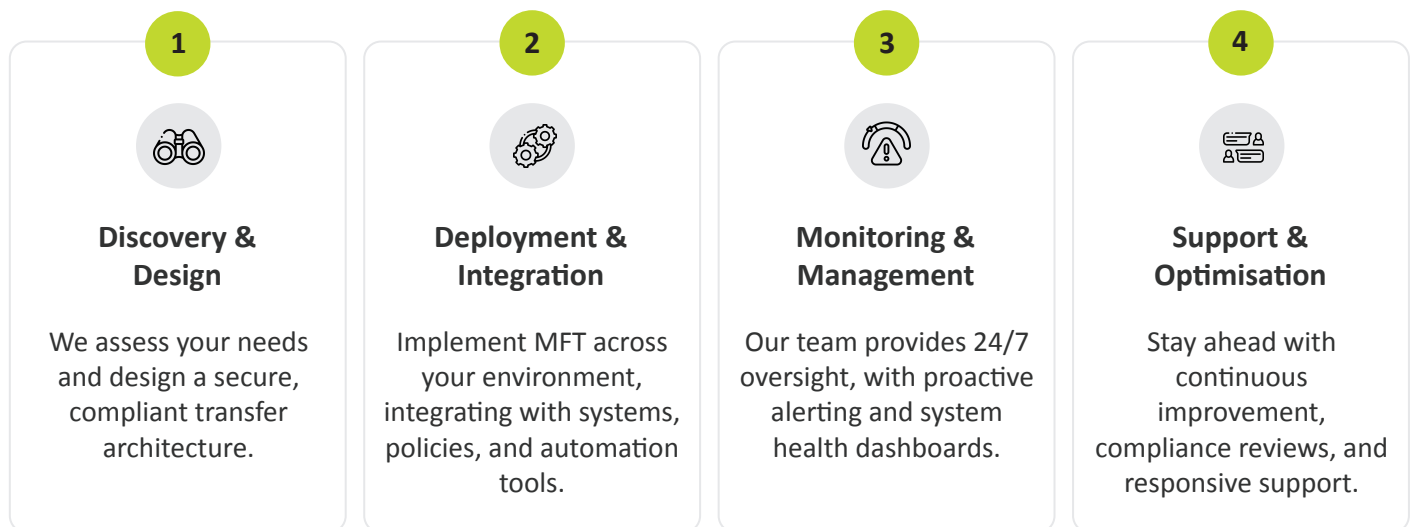

## Key Benefits for Your Organisation

Discover the tangible value our MFT service brings to your business operations.

Benefit	Value to You
Enhanced security & compliance	Minimise risk and safeguard regulated data.
Greater productivity & efficiency	Reduce manual effort, streamline operations.
Better collaboration	Enable secure, reliable partner and internal connectivity.
Fewer errors & human intervention	Automate processes to ensure consistent execution.
Enterprise-grade scalability	Scale your solution as demand increases.
Licensing & Audit Support	Ensure compliance, control costs, simplify audits.

## How the Cube MFT Service Works

Our proven 4-step process ensures seamless implementation and ongoing success.
